EVIDENCE-BASED INTRODUCTION TO TEACHING

**July 27-31, 2020**

# Evidence-Based Introduction to Teaching

**Calling all STEM post-docs and new faculty!**

Teaching for the first time? Interested in improving your teaching? Want a microteaching experience to discuss in your job interviews? Join us at EBIT, a five-day, four-hour per day summer institute for post-docs and new faculty that uses the engineering principles of “Design, Build, Test, and Iterate” to develop course content and assessments. Take part in a genuine student-centered learning experience that will help you in your job search or help start your job off right!

**Only \$50. Registration is required.**
